Get started.

Take a few small steps now, reduce your energy bills and help save the planet.

Together, we can make a difference.

Increase energy efficiency

Turn your thermostat down to 55° at night and when you're not home.

Weather seal your home's windows, doors, ducts and plumbing.

Turn your water heater **down to 120°**.

Turn off and unplug electronic equipment and lights when not in use.

Change at least five light bulbs to compact fluorescent bulbs.

Seattle Climate Action

Drive less, drive clean

Check **tire pressure** every month.

Turn off your engine when stopped for more than 30 seconds.

Commute by bus, bike, carpool or walking.

Think about your trip. Use the **most efficient** vehicle possible for the job.

Go car-free one day a week... or more.

Go further

Other ways you can make a difference:

- **Improve insulation** in your home's attic, crawlspace and walls
- **Replace your car** with a hybrid or other fuel efficient vehicle
- **Buy locally produced food**
- **Plant an evergreen tree in your yard**
- **Spread the word, tell a friend**

Get started.
